

Safeguarding and Welfare Requirement

10.10 Information and Records/ Family

Policy Statement

At Jumblies Day Nursery we use an online system called Family to record and store all observations and assessments relating to each child. This is a safe and secure system and one that enables parents and carers to access their child's Learning Journey at any time. It can be shared with with their child, family and friends at home and also post any comments and photographs of their own, helping to create a fully holistic view of the child and strengthen the parent partnership.

Safety and security

Staff use tablets to take the photographs for observations, which are uploaded to the journals. Each staff member has a secure login which is password and pin protected. The tablets are kept in a secure cupboard at the nursery.

Staff will be allocated time at work to update Learning Journeys and assess their key children's next steps. A dedicated laptop is provided for this, which is password protected and kept at the nursery. Staff do not take tablets and/or laptops home or access Family on their private devices.

If any member of staff suspects that their login details have been compromised in any way, they must inform the pre-school managers and new login details will be created. The Family on-line Learning Journey system is hosted on secure dedicated servers based in the UK. All data held on our Family account is owned by Jumblies Day Nursery; we are registered controllers of data with the Information Commissioner's Office and are bound by the Data Protection Act. Photographs stored on the tablets are deleted half termly by management.

Parents

Parents logging in to the system can only access their own child's Learning Journey. Parents may input new observations and photo's, and add comments to existing observations. Parents are not able to edit the Learning Journey. Parents are asked to sign a consent form giving permission for their child's image to appear in other children's Learning Journeys, and to protect images of other children that may appear in any photos contained in their child's Learning Journey. If parents withhold this consent their child is only ever photographed alone and no shared observations are made including that child.

When children leave

When children move to another setting we will transfer the Family account to the new setting, if they also use Family. If they do not, we will email a PDF to the setting. When a child leaves the setting to start school we will email the parents a PDF copy of their child's Learning Journey so they have a lasting record of their child's time at pre-school. The child's information, and their

Learning Journey will be permanently deleted from our Famly account so no data on that child will remain with us once they have left.
